iGOT Karmayogi as a Solution Scape – 6 Hubs

Introduction

Search for learning contents

HUBS

Learn

Shape your Skills with hundreds-of online course

Discuss

Have a question? Have an Idea? discuss with your peers

Network

Connect with Interesting people, see what they are upto.

Career

Explore the carrier option grow into the path you are

Competencies

Add your competencies, see what others are adding

Events

Add your events

iGOT Karmayogi: Transforming Government

iGOT-Karmayogi is a mobile-first platform that will enable and incentivise millions of civil servants to become better at their jobs, support their colleagues across government, and achieve an ambitious vision for their careers.

Learning hub

AI-driven learning path, matching competency gaps with high-impact CBPs

Events hub

A space to discover events of every kind

Career hub

Competency-driven 'position' search, based on smart contextual recommendations

Discussion hub

Focused forums for discussions by inheriting platform intelligence to promote peer learning

Network hub

Intelligent recommendations for matching profiles to connect with peers and experts

Competency hub

Identifying competencies (behavioural, domain, functional) required for every role

Before initiating content creation, some key players need to be onboarded

Administrator

Organization Admin identifies and provides creation, review and publishing access to the users. Also, Org Admin processes the requests related to organization change made by the iGOT users

Content Creator

Content Creator creates the learning content on the platform. Creator provides all the relevant information related to the created content.

Content Reviewer

Content Reviewer reviews the contents created by the creators. Reviewer also verifies the quality of the content. Based on the review, the Reviewer decides if the content needs further modifications.

Content Publisher

Content Publisher publishes the content, approved by the reviewer, on the platform. After the content is published, the content gets available for the learner on the platform.

MDO Admin Portal – Approvals

The screenshot displays the MDO Admin Portal interface. At the top left is the iGOT logo. The top navigation bar includes a home icon, a notification bell with a red badge, and a user profile icon. The main header shows the breadcrumb: Approvals > To Approve > Reviewer Publisher Content Creator.

On the left sidebar, there are five menu items: Needs approval (highlighted), Personal details, Academics, Professional details, and Certification and skills.

The main content area is divided into two sections. The top section, titled 'Needs approval', has a 'Pending approval' status indicator. It contains four fields, each with a red 'X' and a green checkmark icon: Designation (Secretary), Date of joining (06-01-2021), Industry (Agriculture and Allied Industries), and Location (India). The bottom field, Type of organisation (Government), is partially obscured by a modal.

A modal dialog titled 'Accept request?' is centered on the screen. It contains the text: 'Once you accept, the feilds will get updated in user's profile. You can make changes to any field at any point.' At the bottom of the modal are two buttons: 'Go Back' and 'Accept'.

The bottom section, titled 'Personal details', features a profile picture placeholder and a text input field for 'First name' containing the value 'reviewer publisher'.

On the right side of the page, there is a 'Change log' section with the text 'No updates yet'.

All the steps are well defined & automated on iGOT KY

iGOT Karmayogi Platform follows a well defined content structure

Resource

It is the smallest learning entity that may be consumed by a learner. A resource may be in one of the multiple formats supported on iGOT Karmayogi platform – PDF, Video, Interactive e-learning, Webpage, Assessments / Quiz, link etc.

E.g. A learning video on “How to write effective e-mails”

Module

It is a collection of resources. Multiple resources uploaded on a platform may be stitched together in a logical sequence to form a module. **E.g. Module on Written communication skills**

Course

It is a collection of modules. A course is aimed at improving targeted competencies of a learner.

E.g. Course on Communication skills

Programs

It is a collection of courses

E.g. Program on Behavioral skills for Under Secretaries

Course

An illustration of two stylized human figures interacting with a large, dark grey monitor. On the left, a figure in a blue long-sleeved shirt and dark pants points with their right hand towards a white rectangular box on the screen. On the right, a figure in a dark blue long-sleeved shirt and blue pants holds a large white rectangular box with three blue horizontal lines. The screen itself displays two white rectangular boxes with three horizontal lines each, one in the upper right and one in the center-left. The entire scene is set against a light grey background with a small grey plant-like shape at the bottom right.
